### 4.2 MILE NATURE & HIKING TRAIL OPENS AT MONEY HILL

**Abita Springs, LA** – Money Hill Golf and Country Club celebrated the Grand Opening today of their new 4.2 mile Nature and Hiking Trail on their private Northshore grounds. The rustic trail wraps around a sparkling 150 acre spring-fed lake amid a lush growth of season wild flowers, native animal life and towering pine savannah. It is not only a thoughtful new fitness amenity at Money Hill, but also a striking addition to the already breathtaking grounds in the golf community.

Today's events for residents and club members were punctuated with an Adventure Run at the trailhead and a guided Nature Walk hosted by Nelwyn McInnis of The Louisiana Nature Conservancy. There's plenty of outdoor splendor to see along the trail, including a rare bald eagle nest and many other unusual species, like the Bachman's squirrel. Plant life is equally interesting and diverse. A new trail map illustrates the course of the main trail and associated loops, along with descriptions of some of the plants and animals one is likely to see along the way.

Money Hill is located on Highway 435 north of Abita Springs. Several levels of club memberships are available including affordable Social memberships or Swim/Fitness/Tennis memberships for non-golfers. Detailed information regarding the community and club membership is available online at [www.moneyhill.com](http://www.moneyhill.com).
